

SOFTWARE RADIO TECHNOLOGY PLC

Board Appointment

The Directors of Software Radio Technology plc (“SRT” or the “Company”) are pleased to announce that Dr. George Kyrios has joined the Board of the Company with effect from 17 December 2007.

In November 2007, George joined SRT PMR Technology Limited as Managing Director with the objective of developing the business and maximising the various opportunities that the growing digital PMR market offers.

Simon Tucker, Group Managing Director of SRT, said: “Since joining SRT PMR Technology, George has proven his ability to drive the business forward. I am delighted that George has now joined the SRT Board and am sure his experience will bring significant benefits.”

Dr. George Kyrios, Managing Director of SRT PMR Technology, said: “SRT PMR Technology has many opportunities and after three months in the role, I am enjoying the challenge of turning these into reality. Joining the SRT Board will allow me to bring focused input on this division to the Board and contribute to the overall success of SRT in the future.”

Appendix

George Kyrios, aged 51, is currently a director of Arator Limited and within the last five years was also a director of Agendo Limited.

Mr. Kyrios has confirmed that there is no further disclosure required under the AIM Rules for Companies.

About SRT:

Founded in 1987 and quoted on AIM in 2005, SRT focuses on the development of turnkey technology product solutions for homeland security applications. SRT's technologies are used by manufacturers to fast track and de-risk the development of their own products. SRT has focused on the areas of professional voice and data radio communications such as TETRA and maritime identification and tracking systems, such as AIS: both of which are global standards. The Company has a worldwide customer base with a business model based on customers paying royalties on each product manufactured.
