("SRT" or the "Company")

**US\$480,000 AIS Class A Order Received**

Software Radio Technology plc ("SRT" or the "Company") is pleased to announce that it has received a new order worth US\$480,000 for its recently launched AIS Class A transceiver, together with the required advanced order confirmation payment.

SRT commenced production of its new AIS Class A Transceiver product line in May 2010. This order is a follow-on order from the customer which has already taken delivery of units and will be fulfilled prior to 30 September 2010.

Neil Peniket, SRT's COO said: "This is a new product for SRT and whilst we are confident that it is competitive, follow-on orders from existing customers demonstrate satisfaction in the market. Our challenge is to ensure that we continue to ramp up manufacturing capability in a controlled manner to satisfy demand from our customers."
